ENGAGING QUALITY PROFESSIONALS TO IMPACT COMMUNITIES

A SPECIAL
THANKS TO
OUR SPONSORS

People v. ACA-5

We have partnered with CACA of Greater New York to work against ACA-5 which would repeal Prop 209, passed in 1996, which banned race-based admissions in California. California legislators took advantage of the pandemic crisis, to sneak ACA-5 into committee with barely a 24 hour notice. After Prop 209, California prospered from the contributions of people of all types. More non-Caucasians than ever, of varied ethnicities and colors advanced in California these decades. Black and Hispanic enrollment did not collapse at California universities after Prop 209 ended racial spoils. Instead, Black and Hispanic graduation rates improved and more completed their original majors.

In the coming months, we will be working on the grassroots level to bring about awareness of this systemic racism that our lawmakers seek to reinsert in our public schools and hiring processes.

Community Highlight

On April 29, The Orange Club supported Congressional candidate Young Kim in passing out masks and supplies to the local police department. With the COVID-19 situation, local law enforcement agencies are not prioritized to personal protective equipment needed for their jobs despite their close proximity to potential suspects.

The Orange Club is a PAC advocating for Chinese American Rights. They are active throughout Orange County and support similar interests as AIB. From their website, they seek to "positively impact the Chinese-American community through policy development, community education, and active participation."

iLEAD Online ~ The Right School at the Right Time

BY EILEEN ELLIOTT

As the school year starts to wind-down, teachers, students, and parents are catching their breath and reflecting on the enormous educational shifts that most of them faced (and continue to face) because of the pandemic. iLEAD Online's educators and families have had a different experience. Though they made some minor adjustments, for the most part, it was business as usual. iLEAD Online was built for this, and their students' learning hasn't missed a beat. iLEAD is a public charter school - meaning it receives funding from the state and federal government just like a traditional district public school. Full-time students living in the counties of Los Angeles, Orange, Ventura, San Bernardino, or Kern may enroll free of charge. Students living outside of those counties still have options available to them and can contact iLEAD Online to learn more. During the 2019-2020 school year students in grades 3-12 were invited

to enroll, but starting in August, the program is expanding to K-12. There has never been a more critical time for this supportive yet virtual learning model. iLEAD's infrastructure for student support is unmatched. Kids have access to course facilitators (teachers), real-time tutors, and one-to-one academic coaches who provide personal attention and advocate for their students. That support is combined with original, project-based courses that are created in-house by credentialed, expert teachers who can customize classes to best fit the interests and needs of each learner (student) -- without compromising the integrity of the courses.

Though this is obviously an online school, that doesn't mean students are "plugged-in" all day. iLEAD promotes the philosophy that learners are leaders, servers, problem-solvers, creators, collaborators, and deep thinkers. Project-based-learning is the key to honoring

that philosophy and holding students to a higher level of accountability -- because it requires learners to be actively engaged and to demonstrate their understanding. You won't find multiple-choice or true/false exams here.

The pandemic has left many parents worried that their child's education has suffered this spring, and they have a desire to find a high-quality online program during the summer break. iLEAD Online has an established program for grades 2-12, and classes start in July. Students can choose from a variety of courses that combine skills and content from the core academic subject areas and culminate in a real-world opportunity to make an impact!

The majority of the high school course catalog is open during July/August, and there are also unique offerings for high schoolers -- including those who are college-bound. Students who wish to get ahead or recover credits will be well-served by this program, and they will receive an official high school transcript upon successful completion. iLEAD Online is WASC accredited, and their high school courses are NCAA and UC a-g approved.

Families living in LA, Orange, Kern, San Bernardino and Ventura Counties may contact iLEAD Online to see if you qualify for free tuition or if you have any enrollment questions at www.ileadonline.org

Homeschool Statistics

According to a RealClear Opinion Research survey of 2,122 registered voters, 40% of Families More Likely to Homeschool After Lockdowns End. Here are the results of the numbers.

More Likely breakdowns:

Age:

18-34: 44.9%

35-44: 40.8%

45-54: 35.3%

Race & Ethnicity:

White: 36.3%

Black: 50.4%

Hispanic: 38.2%

Asian: 53.8%

Party ID

Democrat: 45.7%

Republican: 42.3%

The Beginning of the End

BY ANALIA ANDERSON

We are in the last days. The devil knows his time is short. We are witnessing Bible prophecy played out before our very eyes. I knew a one world government was in the horizons, I just didn't realize how quickly it would come. When the coronavirus hit and all the nations around the world quickly complied to shutdown without much thought, I knew this was the beginning of the end. The devil has used fear to manipulate people into social distancing, staying home, isolating, shutting down their churches and businesses, muzzling their mouths, barricading themselves behind plexiglass at restaurants and stores, verbally assaulting and attacking others, and even neglecting their own healthcare needs to accommodate COVID-19 patients. If destroying our economy and mental, physical, emotional and spiritual well being weren't enough, the devil had to pull one of his old tricks again with race baiting. That alone is enough to set ablaze the entire nation into chaos. With businesses opening up again being a light at the end of the tunnel, the riots and mass destruction sabotaged any sign of hope for many.

We need to understand spiritual warfare and how to defeat the devil and

his schemes. We must pray in the spirit to bind the enemy, pull down demonic strongholds, and break the curses spoken over our land by principalities who are regional generals of Satan's army to kill, rob and destroy. The carnal mind can only see and fight in the natural against other people rather than the forces of darkness. That's why we must be soul winners because only God can remove the veil from people's eyes. We must pray for our leaders, neighbors, friends, fellow believers, and family members because the devil will turn everyone against each other in these last days. All these trials and tribulations are setting us up for Jesus' return. We must be kingdom minded and see people as lost souls to help bring them into eternity with us. God is raising His army of angels!

“For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places. Wherefore take unto you the whole armour of God, that ye may be able to withstand in the evil day, and having done all, to stand.”—Ephesians 6:12-13

OC Shaolin Kung Fu

IRVINE, CA

OC Shaolin Kung Fu offers training in traditional Shaolin Kung Fu, one of the oldest and most famous styles of martial arts. Shaolin Kung Fu embraces defensive and offensive combat skills, while embodying the Chan (Zen) and Wu (Kung Fu) of the Shaolin temple.

**First class is free

Portfolio Help Due to COVID-19

VAN NUYS, CA

Our member Ray Benito is looking to help individuals whose Pension Funds or IRA are rapidly decreasing in value. Ray can help them mitigate tax penalties or other ramifications, cut their losses, regain what they have lost and maybe more depending.

Two weeks ago, amidst the COVID -19 crisis two of his investors whom he helped diversify their 401K into Self-Directed IRA to buy land (without penalties) about 2-3 years ago, received an offer from an energy company to lease their land for 35 plus years. His clients also had an option to sell their land outright if they decided to just simply liquidate their land.

If anyone would like to attend a webinar for a one on one to learn more (free of charge and definitely) please reach out to Ray at raysbenito@gmail.com.

Free Notary Service by Nguyen Insurance Agency

SAN GABRIEL, CA

Due to the COVID19 virus, we at Nguyen Insurance Agency want to do what we can to help. For the next two months we are offering free notary service within a 30 mile radius, a small travel fee may apply to offset gas. We offer this for everyone, you don't have to be a client. Please stay safe out there and take care of yourself and family! For more information, please email

julie@julienguyen.org.

OUR MISSION IS SIMPLE

CHARITABLE

Connecting our members with the most high-integrity charities to perform "random acts of kindness".

CULTURAL

Pushing for fair representation of Asians in print, online, movies and television, ending negative stereotypes.

POLITICAL

Pushing for more Asian Americans in government, furthering our family and pro-business values.
