Prop 16: Less Than 100 Days Left

The fight continues and we have less than 100 days to swing votes to our side. AIB joined the Californians For Equal Rights (CFER) coalition while the bill was still circulating the legislature. Now we are more active than ever in helping to get the word out.

CFER has successfully gotten key party endorsements from the GOP and community leaders including a few Democrats that see the injustice of this proposed change to our state constitution. Most importantly, it has woken up the Asian American community to stay silent no more. Asians traditionally have not been political vocal or active come out charging.

As a coalition, we will also be hosting car rallies to get the word out. They have been hugely successful in Northern California attracting hundreds of cars and attendees.

Save the dates for our car rallies and we hope you can make it!

~August 8 10:30 AM at the Arcadia County Park, Arcadia

~August 8 3:00 PM at the Mission Bay Park, San Diego

~August 22 10:30 AM at the Irvine City Hall, Irvine

Healthy, Happy Cherries!

BY SHERILL FRANKLIN

Sherill Franklin is our Board Member and Health and Wellness chair. Sherill sets up our Wellness fairs and is actively involved in the monthly H&W events. She is a representative for Arbonne and produces weekly videos showing the benefits of living a healthy lifestyle.

Last month we chatted about drinking enough water and getting enough sleep. How is everyone doing? “Great!”, “Struggling”, “Getting better”, “Was never a problem for me”?

If you’re in one of the first three categories Summer can be a great time to conquer the water-drinking challenge. Hot weather dehydrates the body more quickly; but we notice thirst more readily in hot weather and most summer fruits have a high fluid content. Drinking more water and also opting for slices of melon, a dish of cherries, a couple of juicy peaches or a mango (mmm) instead of a brownie, will get your body accustomed to greater fluid intake. Moving into Fall and Winter you’ll likely be better able to recognize thirst or dehydration when they occur and thus keep yourself healthier. Delicious fruits and more fluid? Win! Win!

But wait, there's more!! While enjoying my bowl of cherries today the label reminded me that cherries are high in melatonin. Melatonin helps the body regulate sleep and cherries are one of the few natural food sources of melatonin! Continue the sleep practices we talked about, then, in addition, try having a bowl of cherries about an hour before bedtime to help the body’s sleep cycle. Wonder if we’ll see a difference?

Delicious fruit, more fluid and better sleep? Win! Win! and Win!

The Answer is School Choice

Dear readers, with the chaos we are facing today, it is time to stop cursing the rain and raise the protective umbrella of freedom and liberty. No one can do it for you. It is up to you to take the actions that will bring restorative change. The system of government given to us was, and is, the best created in human history. It put into place the tools to eliminate our flaws while allowing the freedoms that encourage prosperity for all who choose to work for it. There is no utopian experiment that has ever come close. The attacks on western civilization and our Republic is deeply rooted in our education system and its institutions. The teacher unions dues are spent on campaign donations, creating a corrupt relationship with our elected.

Government schools have become centers of indoctrination and not education. Our children are being dumbed down. Reading and math scores

are abysmal. Science is being taught as a religion and not as a process of understanding. Curriculum actively attacks parents, the family, and religion. Our real history and civics are not being taught. SeXXX Education policies are pornographic. Education alternatives that are free to teach real history and moral formation, are under attack by the unions and their legislative cronies.

Simply stated, School Choice has become the Civil Rights issue of our time. The power over our children's education must be taken away from the state and that freedom be given back to where it rightly belongs, the parents. Only by bringing free market competition to education can we expect to see that restorative change. That is the mission of The California School Choice Foundation. We will not take back liberty and freedom until we once again begin teaching...

....continued on next page

The Answer is School Choice continued

Americanism to our rising generation. We must give all our children the tools to be self-sufficient and productive members of society. We must be compassionate without encouraging dependency. We must teach the civics process for making change when it is required. We can begin in California because of the initiative process. To have an “Education Freedom Act” be put on the ballot in 2022, we will need one million signatures on a formal petition. Here is how it might work.

Divide all annual Proposition 98 education funds equally among all K-12 students. The money would be deposited into individual “Education Savings Accounts”. That money (currently \$12,500 per year/per child) could only be used to pay the tuition at the accredited public, charter, private, or parochial school of the parent’s choice. Unspent funds accumulate and upon graduation would be made available for university or

vocational training. Home schoolers could easily accumulate \$120,000 in their ESA. We have already seen in states that have some form of School Choice, increased performance in all schools due to the introduction of the free market to education.

Students in under-served neighborhoods will no longer need to be trapped in failing schools by their zip code.

Join the California School Choice Foundation in this fight for all our futures. Check out our website, explore, sign the petition of support, make a small donation, and let us stay in touch with you. You can reach us at;

A Season of Preparation

By Analia Anderson

We all know 2020 is not what we ever expected. The world came to a screeching halt, as if we are watching a bad sci-fi movie from the 80's. While we are in constant pause mode, our minds are bombarded with negativity, fear, brainwashing, division, and uncertainty through the news media and social media. We can't seem to escape Satan's destruction. It is hard to discern whom to trust anymore to inform us with the facts.

Fortunately, God's Word is infallible and unwavering. He is the same yesterday, today and tomorrow. He tells us in the bible what is to come. The world is giving us the devil's narrative, so we need to unplug and get in God's Word to know the truth and prepare for the next prophetic fulfillments that pave the way for Jesus' return. God is getting our attention. Satan knows his time is short, but God is also working. He is equipping us to be His remnant warriors to lead His people to the finish line and save the lost who are distracted and caught up in the things of this world. We must be watchmen and sound the alarm to warn people into repentance and call upon Jesus to be our Lord and Savior so we are not left behind when He comes

Now is the time to sow the seeds in the areas God is using us to deliver His message of salvation and judgment. He is training us up for war. People are arming themselves physically, but the real fight is in the heavens against principalities and rulers of darkness in high places. God is suiting us up in His armor to do spiritual warfare. Get rooted in the Word to know His battle plans to defend our faith and

set the captives free. Fast, pray, rebuke. The time is near. Develop your spiritual muscles and load up your spiritual arsenal. Hone your craft. We need to wake up the church who is asleep. Be bold. While the soul of our nation is at stake, the greater prize is eternity.

“Do not be afraid; keep on speaking, do not be silent. For I am with you, and no one is going to attack and harm you, because I have many people in this city.” –Acts 18:9-10

BLEXIT

A few weeks ago, we met Blexit's California Chapter on social media. As you may know, Blexit is Candace Owens and Brandon Tatum's national group which attracted President Trump himself. They are grounded in the same concepts we are which are family, faith, and freedom.

We are proud to show off our newest friends and our first collaboration event led by Joshua Fontanilla and his wife Kali. Save the date for our Block Party in Walnut at On A Mission Church on October 17.

It will be a day of fun and fellowship. All are welcome. We will have booths with vendors, food, music, cool speakers, and fun games.

BLEXIT Foundation's vision is to change the narrative that surrounds America's minority communities - with a particular focus on African-Americans.

- 1 Advocating for School Choice and alternative educational opportunities for America's low-income and minority children
- 2 Promoting criminal justice reform for those impacted by the penal system and developing educational programs to help communities avoid incarceration
- 3 Championing entrepreneurship and free enterprise as keys to escaping government dependence and poverty
- 4 Developing history programs that will inspire minority children to succeed and lead productive and responsible lives
- 5 Presenting the message of BLEXIT through evocative visual art and compelling live experiences.

Welcome to City of Hope

We are excited to announce our newest AIB sponsor, City of Hope. City of Hope offers a network of world class healthcare and are going to become a part of our OC family.

More than 500 people have provided feedback on the design of City of Hope Orange County's world-class cancer campus of the future in Irvine, California. City of Hope Orange County is continuing its commitment of listening to and responding to the diverse needs of Orange County by ensuring that the campus built for the community is also built with the community.

Pre-COVID-19, patients, residents, physicians and staff walked through a life-size cardboard model of the \$1 billion campus, conceptualizing an innovative, culturally-sensitive and healing space

that will house world-class cancer research, clinical trials and highly specialized treatments previously unavailable locally. Gaining feedback now allows City of Hope to act on ideas both simple and complex that will re-shape the delivery of cancer care.

OUR MISSION IS SIMPLE

CHARITABLE

Connecting our members with the most high-integrity charities to perform "random acts of kindness".

CULTURAL

Pushing for fair representation of Asians in print, online, movies and television, ending negative stereotypes.

POLITICAL

Pushing for more Asian Americans in government, furthering our family and pro-business values.
