

AIB2B

ENGAGING QUALITY PROFESSIONALS TO IMPACT COMMUNITIES

OUR MISSION IS SIMPLE

CHARITABLE

Connecting our members with the most high-integrity charities to perform "random acts of kindness".

CULTURAL

Pushing for fair representation of Asians in print, online, movies and television, ending negative stereotypes.

POLITICAL

Pushing for more Asian Americans in government, furthering our family and pro-business values.

NOTE FROM AIB2B PRESIDENT

Thank you everyone for all your support of AIB2B through the years. We have grown from a small business networking group to an impactful community organization that makes principled choices in every move we make, every event we throw.

In the beginning, "advisors" told me to steer the organization away from politics, as I scratched my head wondering, "how?" Politics were directly impacting and hurting businesses. We engaged and now we operate on Independent terms, fighting the Democrat and Republican parties destroying our businesses and our society.

Over the years, we picked up new followers aligned with our mission, and disengaged from sponsors and stakeholders not aligned with our pro-family, pro-business and pro-America values. We have been unafraid to stand for things like last year's recall, or to support candidates that at their core, understand the business community and its values. We are advocates for entrepreneurs and innovation.

Through all this, since day one, Lany Indrawati, our new VP has been a consistent supporter and action-oriented board member fulfilling our mission in the community with her unique background and passion for our conservative values. Today, she is leading most of our events and spreading the good word.

September is a proud month, as we have 5 or 6 events in the next few weeks, supporting everything from anti-human trafficking efforts to business mixers to chaplain tours to an educational fair in October to an El Salvadorean celebration to signal our collaborations cross cultures.

Please join Lany and myself in these many events.

JASON DHING FOR MONTEREY PARK CITY COUNCIL

MONTEREY PARK, CA

This month, we welcomed a new candidate to the Monterey Park city council race: Jason Dhing.

A hosted lunch was served at NBC Seafood Restaurant.

Jason is an engineer by trade and has consistently served in his community in non profit work and education. Additionally, he volunteers at the Monterey Park Fire Department's Community Emergency Response Team (CERT).

To learn more Jason's race, please visit jasondhing.com

CLASSIC CARS FOR CARGILE 4 CONGRESS

CHINO, CA

This month, AIB board member Lany Indrawati helped host a Cargile for Congress's (CD-35) fundraiser at Kasner Korner garage.

Kasner Korner in Chino, CA focuses on a collection of classic cars with a swanky 50's vibe.

During this election cycle, Lany has been influential with numerous races. She has been booking back to back meet and greets, fundraisers, and community events to activate all walks of life.

Meanwhile, Mike Cargile is running again for Congress. This time in a new 35th district after old district lines have been shuffled around which now includes Pomona, Chino, Chino Hills, Upland, Montclair, Ontario, Fontana, Eastavale and Rancho Cucamonga.

To learn more or to visit Kasner Korner, please visit kasnerskornergarage.wordpress.com

NAAQS: BEWARE

ENERGY INDEPENDENCE NOW

Last month, Asian Industry B2B joined a statewide sign-on letter with other California organizations to urge members of the California Congressional delegation to take steps to reduce energy market volatility at a time of historic inflation. In particular, we addressed the issue of the EPA's review of National Ambient Air Quality Standards (NAAQS), which we are concerned may add to inflation and harm businesses and communities more than it helps.

Every five years, the EPA reviews NAAQS to determine what is an acceptable level of emissions and whether they need to be tightened. However, once

NAAQS are updated, communities must pay for new equipment to improve air quality, which can be extremely costly for taxpayers. There is not much reason to believe that stricter NAAQ Standards are required in order to reduce domestic air pollution. Our air quality is the highest it has been in decades, and data says that US manufacturers have reduced emissions by nearly 80% over the past 50 years. This is cause for celebration and a sign our current regulations are working, not a reason for the government to increase costs and trigger new waves of regulation that will harm consumers and California

...continued

small businesses. We are also concerned that unnecessarily tightening NAAQ Standards may slow domestic oil production and limit American energy independence.

We will continue to monitor this issue and communicate to our members of Congress that Washington must consider ways to reduce, instead of increase, everyday costs.

UPCOMING EVENTS

SECURE TRUCKLOAD PROGRAM

DIAMOND BAR, CA

Due to LA Port Congestion, trucker shortages and fuel charges continually increasing, Port Alliance would like to introduce our Truckload Secured Program.

Please see our flyer and rate sheet.

The truckload space is limited and first come first serve. (100 ctr per month). If this program is good for your shipment, please book with us in advance so we can reserve the space for Xiamen Supertrans Logistics Co., Ltd. (Xiamen, Head Office).

Please note that we also service cold storage needs in the Pacific Southwest of California, Nevada, Arizona and the rest of the west coast by utilizing different sizes of equipment from 20' bobtails to reefer 53' trailers and a facility equipped with a large freezer, large cooler and a temperature-controlled loading area for storage and consolidation.
