

AIB2B

ENGAGING QUALITY PROFESSIONALS TO IMPACT COMMUNITIES

OUR MISSION IS SIMPLE

CHARITABLE

Connecting our members with the most high-integrity charities to perform "random acts of kindness".

CULTURAL

Pushing for fair representation of Asians in print, online, movies and television, ending negative stereotypes.

POLITICAL

Pushing for more Asian Americans in government, furthering our family and pro-business values.

HISTORIC SUPREME COURT HARVARD DECISION

WASHINGTON, DC

AIB2B was part of the successful defeat of Prop 16 in California and to work with organizations around the country to fight racial discrimination in college admissions, public sector hiring and contracting.

Now with a conservative supreme court majority, we are in the midst of witnessing some major changes to end racism once and for all. Especially on a systemic level.

Thank you Joy Chen for your continued dedication to the cause and for interfacing with partners like Tony Guan of Equal Rights For All PAC up in Northern California.

VOLUNTEERING FOR SANTA CLAUS INC

SAN BERNARDINO, CA

On October 8, AIB members gathered at Santa Claus Inc in San Bernardino who has one of our preferred charities since our organization began.

Volunteers organized and sorted thousands of items donated by well known clothing companies and toy stores to eventually give to children who come from families below the poverty line for Christmas.

Big thank to you to everyone who came out to give back!

EDUCATION FAIR 2022

YUCAIPA, CA

On October 22, dozens of alternative education resources gathered in Yucaipa to present supplementary education organizations to the public.

It was a slightly smaller one than the education fairs we have held in the past because we highly scrutinized each organization that participated.

In attendance were churches, home schools, volunteer groups, and leadership institutes. We wanted to cater to not just the homeschool community.

The biggest hits were the petting zoo and bounce house which gave children of all ages a fun activity while their parents perused.

MIXER FOR ONTARIO MAYOR PRO TEM ALAN WAPNER

ONTARIO, CA

SJ Antonucci and Lany Indrawati collaborated to help bring awareness to all the great work Ontario is doing to make itself a destination and world class hub for business and imports/exports. Our mixer was very well attended and included our ambassador Jeffrey Mamora.

NAAQS: BEWARE

ENERGY INDEPENDENCE NOW

This year, Asian Industry B2B joined a statewide sign-on letter with other California organizations to urge members of the California Congressional delegation to take steps to reduce energy market volatility at a time of historic inflation. In particular, we addressed the issue of the EPA's review of National Ambient Air Quality Standards (NAAQS), which we are concerned may add to inflation and harm businesses and communities more than it helps.

Every five years, the EPA reviews NAAQS to determine what is an acceptable level of emissions and whether they need to be tightened. However, once

NAAQS are updated, communities must pay for new equipment to improve air quality, which can be extremely costly for taxpayers. There is not much reason to believe that stricter NAAQ Standards are required in order to reduce domestic air pollution. Our air quality is the highest it has been in decades, and data says that US manufacturers have reduced emissions by nearly 80% over the past 50 years. This is cause for celebration and a sign our current regulations are working, not a reason for the government to increase costs and trigger new waves of regulation that will harm consumers and California

...continued

small businesses. We are also concerned that unnecessarily tightening NAAQ Standards may slow domestic oil production and limit American energy independence.

We will continue to monitor this issue and communicate to our members of Congress that Washington must consider ways to reduce, instead of increase, everyday costs.
